Objective:-

Aspiring Web Developer with strong skills in HTML, CSS, JavaScript, and React. Passionate about building user-friendly and scalable web applications. Eager to apply technical knowledge, quickly adapt to new tools and frameworks, and contribute effectively to real-world projects. Confident in learning advanced concepts (including AI and LLM-based tools) to solve challenges and deliver impactful solutions. Seeking an internship opportunity to grow as a professional while adding value to the team.

Education:-

B.Tech in Agricultural and Food Engineering *Indian Institute of Technology, Kharagpur* Expected Graduation: 2029

Projects:-

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Built a fully responsive website to showcase personal projects, skills, and professional experience.
- Designed a clean, user-friendly navigation and layout to effectively highlight portfolio content.

To-Do List Web App | *HTML, CSS, JavaScript*

- Developed an interactive web application to add, edit, delete, and mark tasks as complete.
- Implemented local storage to persist user tasks across browser sessions, improving user experience.
- Showcased practical front-end development skills, including DOM manipulation and responsive design.

Basic Stock Price Analysis | *Python, Pandas*

- Analyzed historical stock data to visualize price trends and calculate simple moving averages.
 - Created clear line charts to represent stock price movements and help identify patterns.
 - Demonstrated core skills in data manipulation, visualization, and fundamental financial trend analysis.
-
